

Unidata Users Committee Site Contacts

What is it?

- User Committee member outreach to university contacts for feedback.
- Last completed in 2011

Next round of contacts:

- Form for input at <http://www.unidata.ucar.edu/committees/sitecontact/survey.html>
- Contact Doug with any comments or questions about this form.

Previously suggested template questions:

- Are you aware of any Unidata products/services? (e.g. IDV, LDM, netCDF, THREDDS)
- Which of these do you use?
- Is there a service missing?

Previously suggested questions continued...

- What does moving to the cloud mean for you?
- What cloud-enabled services are you using?
- Are there any obstacles to working on the cloud?
- What are you using to generate graphics to present meteorological information?

Possible additional questions:

- What data streams do you currently use?
- What data streams would you like to use but cannot? Why?
- Any other limitations that are related to geodata?
